CONTAINER ROLLER DOOR RETROFIT

FEATURES

- Material: Colour Coated steel
- Extensive product warranty: our doors are built with quality in mind, which is why we offer an extensive product warranty
- Full range of door colours available with polyester, plastisol or GreenCoat® finish
- Easy to operate roller doors requiring little to no maintenance
- Easy to install as a complete kit and offered on a Supply Only basis

BENEFITS

- **Flexible:** Available in a range of colours
- **Sustainable:** Manufactured according to EN 10169 + A1 and available in GreenCoat® painted steel
- **Durable:** Manufactured from high-quality materials
- **Secure:** Very robust and can be fitted with Nokē™ Smart Entry System. This improves the security of individual self storage units while also making life easier for site managers by automating the lock check and overlocking processes.

COMPONENTS

A standard roller door fitting kit will be included for installation.

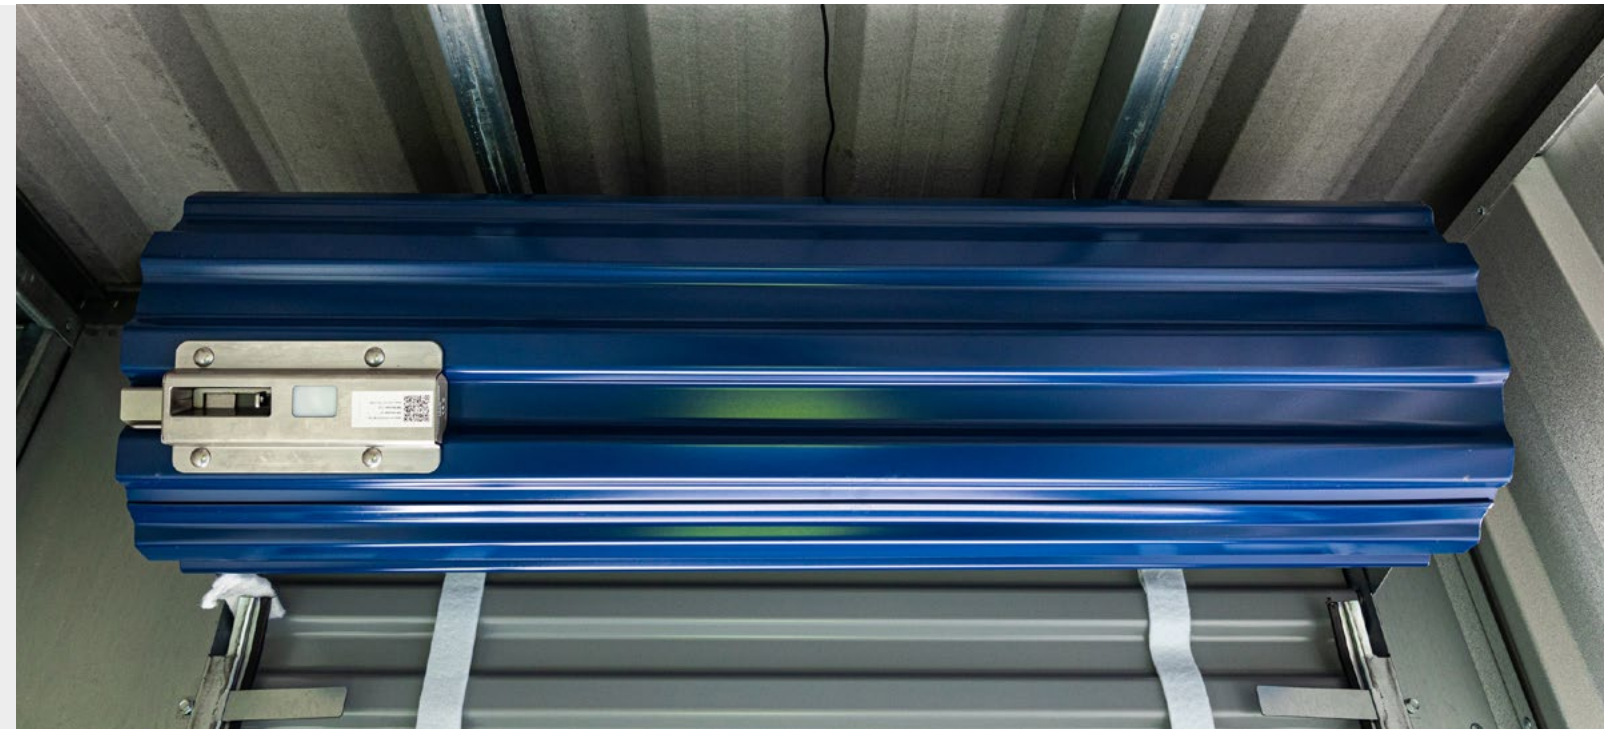

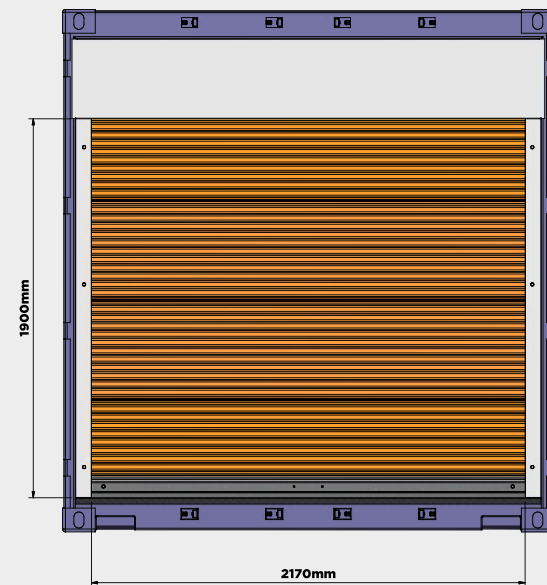

SPECIFICATIONS

MODEL 650 ROLLER DOOR

Recognised as the industry's best performing roller door, the 650R is ultra-reliable and proven across the globe. These high-quality steel doors last for years with limited maintenance.

- **Height:** 1900mm from the floor to the bottom of the header.
- **Width:** 2170mm
- **Thickness:** Polyester: 0.45mm; Plastisol: 0.50mm; GreenCoat® 0.50mm
- **Finishing:** Polyester, Plastisol and GreenCoat® Pural BT

LOCK OPTIONS

Our roller doors can accommodate a variety of self storage locks and latches.

- **Mini Latch**
- **Recessed Padlock**
- **Bezel Cylinder Latch (C487B)**
- **C-DL-1 Latch**
- **Nokē™ One**

Upgrade your locks to the Nokē™ Smart Entry access control solution.

With traditional locks and latches, site managers have to manually check that each unit is locked. By utilising Nokē™, managers can digitally check for unlocked units and lock them remotely. In addition, they have access to unlock any available unit to show a potential tenant.

Printed on 100% recycled paper stocks.
This is a climate neutral printed brochure.
